John Donne stood at the nexus of these developments. At various times politician, soldier, poet, musician, lawyer, courtier, theologian and cleric, and as a man born into one of the most distinguished English Catholic families only to die as one of its most renowned Protestants, he lived lives as most shades of English identity. He was also intimately involved with three great English innovations that came to dominate the subsequent life of the country: the Anglican church, epitomized by the King James Bible (1611); the scientific enlightenment, prompted by the work of Francis Bacon and the appearance of Galileos work in English (also 1611); and the great artistic flourishing in theatre, poetry and music. This play is about the collision of those worlds. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
