Sage Publications, New Delhi, India, 2009. Paperback. Book Condition: New. First Edition. India Policy Forum 200809 (Volume 5) comprises papers and highlights of the discussions from the fifth India Policy Forum (IPF) conference, held on July 15-16, 2008, in New Delhi. The annual examines Indias reforms and economic transition using policy-relevant empirical research. It generates theoretically rigorous and empirically informed research on important current and unfolding issues of Indian economic policy. The first paper examines the growth of private schools in India and their influence on the quality of education being imparted. It is an extension of the recent issues of this journal that have evaluated the performance of Indias education system. The second paper addresses the major question of why the growth of manufacturing output and employment in India has been disappointingly low. The final three papers share a common focus on Indias external financial relations. The third paper analyzes the process of capital account liberalization and the integration of Indias financial institutions into the global financial system. The fourth paper measures the evolution of prices in the nontradable and tradable sectors of the Indian economy and seeks explanations for the rise in the relative price of nontradables. The last paper addresses the issue of the adequacy of Indias current foreign exchange reserves. The volume would be useful to researchers and policy-makers in the fields of economics, policy studies, development studies, and political economy. Printed Pages: 320.
