Language: English Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Until the 1970s gender had been invisible in analyses of social space and place in the androcentric discipline of geography. While recent contributions to feminist geography have challenged this, in India the engagement of geographers with gender, by being conservative in its choice of focus and orthodox in methodology, has been unable to destabilise the established disciplinary order. However, with younger scholars becoming increasingly interested in studying gender in geography, novel and innovative methods that include combinations of quantitative and qualitative analyses, visual sources and in-depth case studies are being tried out and accepted in geography despite its masculine legacy. This pioneering study brings together Indian geographers contributions to understanding gender, and through them, seeks to enrich the discipline of geography. It engages with the recent spatial turn in the social sciences, which has reclaimed the explanatory power of space and place in social theory that had been nearly lost to deconstructive postmodernist scholarship. The volume draws entirely from the Indian scholarship, showcasing contextualised knowledge production, but hopes to initiate a a dialogue with scholars elsewhere working with feminist methodologies.
