

Digital Learning Strategies: How Do I Assign and Assess 21st Century Work?

By Michael Fisher

Association for Supervision & Curriculum Development. Paperback. Book Condition: New. Paperback. More than a decade into the 21st century, teachers continue to struggle with designing digital assignments as a viable tool for learning and with assessing the demonstration of that learning through student-created products. Digital tools continue to be used primarily for consumption of available resources rather than in the creation of something new. This publication explores what types of assignments are worth engaging online, how teachers and students can leverage global interactions to improve their work, and how teachers can assess digital projects and other work. Along the way, Fisher offers practical advice on rigor and relevance, digital citizenship, formative assessment, and digital portfolios. With instructional strategies and examples of real student work across the content areas, Digital Learning Strategies will allow readers to develop an understanding of the what, when, why, and how of digital assignments and assessments. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.

Reviews

An extremely wonderful pdf with perfect and lucid information. Better then never, though i am quite late in start reading this one. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Elenor Koch PhD**

This publication will be worth purchasing. It is writter in straightforward words and not hard to understand. I am just very happy to explain how here is the best ebook we have read in my own lifestyle and might be he best publication for at any time.
